Product description

DuPont™ Tyvek® 400 Hood (TY210S). Tyvek® 400 garments are composed of flash spun high density polyethylene which creates a unique, nonwoven material available only from DuPont. Tyvek® 400 provides an ideal balance of protection, durability and comfort of any limited use fabric technology. Tyvek® 400 fabric offers an inherent barrier against particles (down to 1.0 micron in size). Protection is built into the fabric itself; there are no films or laminates to abrade or wear away. Tyvek® 400 fabric's durability advantage over microporous film fabrics delivers consistently better barrier, even after wear and abrasion.

Sizes Small to 7X-Large. Option codes: VP, 00.

Key benefits

- Pullover hood design features elastic face opening for good fit around PAPR
- Extends over shoulders to provide full head protection
- One size fits most
