Product description

DuPont™ Tyvek® 400 Lab Coat (TY212S). Tyvek® 400 garments are composed of flash spun high density polyethylene which creates a unique, nonwoven material available only from DuPont. Tyvek® 400 provides an ideal balance of protection, durability and comfort of any limited use fabric technology. Tyvek® 400 fabric offers an inherent barrier against particles (down to 1.0 micron in size). Protection is built into the fabric itself; there are no films or laminates to abrade or wear away. Tyvek® 400 fabric's durability advantage over microporous film fabrics delivers consistently better barrier, even after wear and abrasion.

Sizes Small to 7X-Large. Option codes: VP, 00, NF.

Key benefits

- Labcoat offers front snap closures for easy donning and doffing
- Provides enhanced frontal protection

Prepared by Russmill Safety from publicly available manufacturer information and our product listing. This is not the manufacturer's original publication. For legally required safety data, use the manufacturer's official Safety Data Sheet.

Prepared by Russmill Safety · November 2026

- Laydown collar
- Open wrists
- Two front pockets for holding writing instruments, small tools or parts

Typical applications

- Lead and asbestos abatement/remediation
- General maintenance/operations
- Spray painting
- General clean-up

Specifications

Fabric/Materials	TYVEK® 400
Design	Lab Coat
Seam	Serged
Color	White
Quantity/Box	30 per case
Style	TY212S
